IMC-NL International Consulting B.V.

International Finance · Interim Management · ERP Transformation · Automation · Process Optimization · IT / Networks / AI & AI Workflows

Operational senior expertise for finance organizations, transformation/AI and stabilization. IMC-NL International Consulting B.V. provides **immediately available, experienced implementation capacity** for companies that require **short-term reinforcement in accounting with hands-on support and controlling, in backlog situations, during ERP conversions, in the restructuring of processes, in IT/network design, AI integration, e-invoicing, workflow optimization, individual customizing for SAP, DATEV and Dynamics 365 variants, and in automation projects.** The focus is not on theory or consulting in the traditional sense, but on **operational responsibility in day-to-day business.** Projects and mandates are carried out by long-standing practitioners with comprehensive experience in international finance organizations, ERP landscapes, reporting environments, and IT/network and AI systems.

Available for accounting, IT/Network, AI and automation/expert systems: IHK-certified international accountant Iris G. Landman (CFO), physicist/lawyer Dirk Glass (CEO/CTO), Interim Commercial Manager · Head of Accounting · Controller · Finance Manager · Finance Project Manager · Transformation, IT/AI/Automation, Workflow & Compliance · SAP Key User (FI/CO/AA/SD/MM/BCS) · Project Manager · Bank signatory authority · Senior Accountant · rapid familiarization with integrated ERP platforms such as AFAS, broad experience in international SMEs, corporate environments and consolidation, with overlapping expertise in finance, automation and IT/AI systems, in particular:

- Leadership and operational responsibility in international accounting (German GAAP / IFRS / GAAP variants)
- Implementation, migration and optimization of ERP systems (e.g. SAP, Dynamics 365, DATEV, KHK/Sage)
- Stabilization of closing situations and reorganization of accounting structures
- Post-merger integration and process harmonization with system-neutral technical consulting
- Development and further expansion of shared service structures / interim management of shared service centers
- E-invoicing processes, compliance adjustments and audit preparation, support for auditors and insolvency proceedings
- Hands-on support in day-to-day operations during capacity bottlenecks
- Translation of finance requirements into functioning IT/AI and data structures

Available for interim mandates, project planning and rollouts, or transformation assignments.

Project overview and CV are available upon request.

Typical deployment situations

IMC-NL B.V. is engaged when companies:

- require experienced leadership at short notice during vacancies, transitions or for support
- need to move stalled ERP or digitalization projects forward
- want to reorganize or newly establish acquired or organically grown accounting structures
- are preparing for or carrying out an audit, transaction, integration or rollout
- need a resilient link between finance, IT/AI/automation and operational execution
- want to deploy immediately effective expertise without lengthy onboarding

Additional expertise (if required)

Mandates can be specifically expanded to include:

- structured process automation, customizing or controlling in finance
- supportive use of data-based and AI-supported tools under professional supervision
- interface design between ERP, reporting and operational systems
- pragmatic technology integration (local AI/LLM & cloud) with clear business value

Technology serves exclusively to achieve measurable process improvements – not as an end in itself.

Mandate model

Flexible engagement models:

- ✓ Interim management, long-term mandates, training and system support remote or on-site
- ✓ Project-based implementation, rollout and technology/system-neutral consulting and procurement planning
- ✓ Operational bridging of critical phases
- ✓ Combination of professional steering and hands-on execution, including IT/AI architecture & procurement

Preferably remote | optionally on-site | also available for international assignments

Pricing as hourly rate, daily rate or monthly retainer | travel and accommodation extra
